Creative Website Design for Businesses and Organizations in Hawaii

Gum Design is a Big Island, Hawaii based firm which focuses on website development for Hawaii's small businesses and organizations; we provide affordable, professional website design for the local Hawaiian economy.

Website Features

Unlimited Pages. Our websites are based on the number and functionality of sections. There are unlimited pages within each section at no added cost.

Administrative Component. Every website design comes with an easy to use web based interface where you can login, change text and images in a text editor environment to update website content immediately. Several people can update from any computer. No additional software is necessary.

Cutting Technology. We only use the latest technology so your website moves your company forward with technological advances.

Professional Design & Often Hawaiian Themes. Our designs enhance your company's mission and identity with the beauty and rhythms of the island.

Affordable Prices. Our web design and functionality provides you the best website for your budget.

Search Engine Friendly. Our website designs are structured to give search engines information so you can have a leg up on the competition.
